Commercial, Industrial and Residential Misting Systems

## PORTABLE MISTING FAN

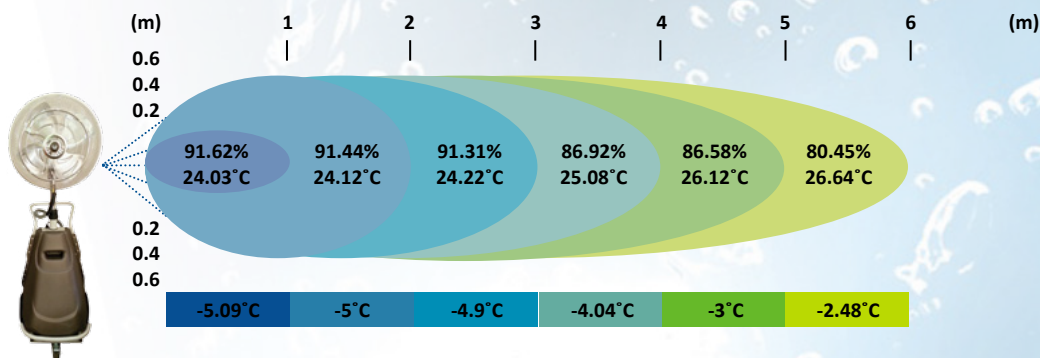

### Freshens the air

The portable misting fan is the perfect accessory to any hot summer day. This versatile cooling system can be set up anywhere there is a power supply and its 38 litre tank provides a soft cooling mist for up to three hours. It can be used at home, sporting events or outdoor functions, just plug in and cool down!

### Features

- High pressure mist pump – 0.4LPM, W.P. 70bar.
- 38 litre tank for three hours of continuous misting.
- Adjustable height up to 190cm.
- Tri-filter systems tank, mist manifold and nozzles.
- Wheel lock for greater safety and stability.
- Motor circuit breaker for electrical safety.
- 3-speed, variable pitch oscillating fan.
- Hose connector inlet with float valve shutoff.

Model	WMF-10005-5C	WMF-10005-6C	WMF-10005-6C
Motor	50HZ, Ø1, 230V	60HZ, Ø1, 110V	60HZ, Ø1, 220V
Fan Output (CBM/min) (3-speed)	160/174/192	165/180/200	165/180/200
Power	270W (125W Pump, 145W Fan)
